

# Weather Application

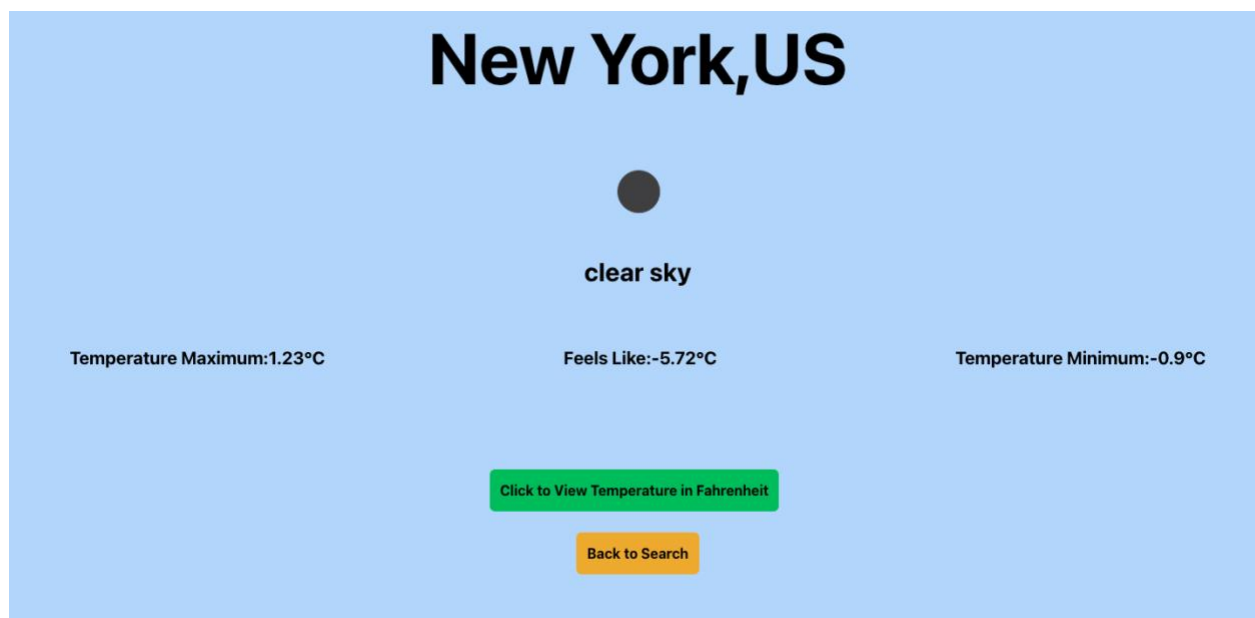

1. The front page of the app.

The front page of the weather application features a light blue background. At the top center, the title "Weather Forecasting of Cities Around the World" is displayed in a bold, black, sans-serif font. Below the title is a white input field with the placeholder text "Enter city name here". Underneath the input field is an orange button with the text "Search" in white.

You can input **any city name around the world** to view the temperature and weather forecasting.

2. Weather forecasting is shown in Celsius (default)

The weather forecasting page for New York, US, has a light blue background. At the top center, the city name "New York,US" is displayed in a large, bold, black, sans-serif font. Below the city name is a dark gray circle representing the sun or moon. Underneath the circle is the text "clear sky" in a bold, black, sans-serif font. Below this text are three pieces of weather information: "Temperature Maximum:1.23°C" on the left, "Feels Like:-5.72°C" in the center, and "Temperature Minimum:-0.9°C" on the right. At the bottom center, there is a green button with the text "Click to View Temperature in Fahrenheit" and an orange button with the text "Back to Search".

3. Click on the toggle button to view the temperature in Fahrenheit.
